Student report

Gradebook

Revolution K12's products are cutting-edge programs. They provide feedback in real-time, and personalize re-teaching for each student based on his or her ability. Low performing students appreciate that Revolution K12 is addressing questions toward 'me.' It's non-judgmental and there's feedback. Other companies are not offering similar products."

Dr. Michelle Tubbs
Director of Blended Learning
LA Alliance College-Ready Public Schools

Common Features

The following features are common across the entire Math Suite:

- Review of foundational skills and concepts
- Pre- and post- testing
- Exclusive Mentor Session Technology for student personalization
- English and Spanish support for text and audio
- Aligned to state or Common Core Standards
- Real-time, standards-based, diagnostic reports which enable differentiated instruction

Implementation Models

Revolution K12's flexible solutions fit schools' diverse needs and make it easy to implement our programs. Here are some ways our school partners are using our web-based, adaptive software suite:

- Core class support
- Before or after school programs
- Pull-out classes
- Summer Bridge
- Advanced classes
- Remediation
- Study-at-home
