

INTRODUCING REVOLUTION GEOMETRY

WEB-BASED ADAPTIVE LEARNING PROGRAMS

Geometry Software

Course features

- 25+ topic areas
- 100+ concepts
- Aligned to all HS geometry Common Core Standards
- 3,500+ online questions
- 75+ off-line student activities

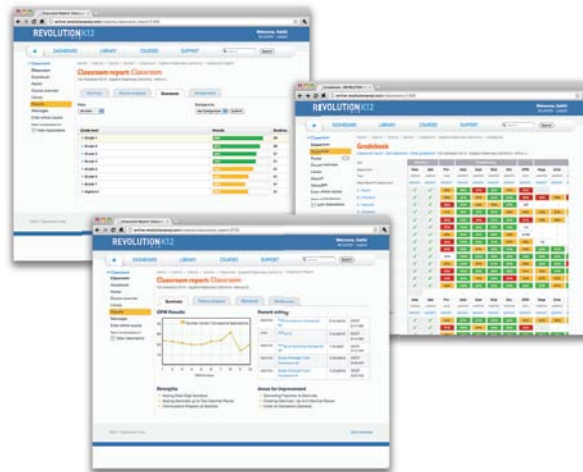

Each topic area includes:

- A review of foundational skills and concepts
- Pre-tests and post-tests
- 4 Mentor Sessions per topic
- Dual language support for key academic terms (roll-over/hover terms with pop-up definitions)
- Interactive off-line student activities (PDFs leveled for Below Basic, Basic and Advanced students)
- A variety of engaging online experiences
 - Multiple choice questions
 - True/False questions
 - Matching questions
 - Open response questions
 - Interactive questions with the ability to drag and re-create shapes

INCREASE PROFICIENCY RATES

INCREASE COLLEGE READINESS

PERSONALIZE STUDENT LEARNING

TRACKING AND REPORTING ENABLES:

- Differentiated Instruction
- Automatic, Targeted In-Line Learning
- Explicit and Systematic Instruction
- Ongoing Progress Monitoring

DATA-DRIVEN AND STANDARDS-BASED

ALIGNED TO COMMON CORE STANDARDS

INCREASE TEACHER EFFECTIVENESS

Educators are talking about Revolution K12

“Students who take Algebra I in high school and then take geometry have about an 80 percent chance of ending up in college. That 80 percent remains the same no matter what your race, religion or family income.”

-College Board

“Students need an opportunity to catch up and build those skills that they may have missed out on—standards-based, not scripted, building a scaffold of skills. What I see Revolution Prep providing is a curriculum support for teachers, [and] a way for teachers to fill those gaps, to figure out what this student is having a problem with and how they can support them in meeting this standard”

-Karen Salerno, Math Instructional Coach
Howard Road Academy, Washington, D.C.

“Revolution is a cutting-edge company. Revolution understands that technology is an instructional tool. They re-teach in real time, [and] personalize re-teaching per student. Low-performing students appreciate that Revolution Prep is addressing questions to ‘me.’ It’s non-judgmental and there’s feedback. Other companies are not offering similar products.”

-Dr. Michelle Tubbs, Director, Math Instruction
Alliance for College Ready Public Schools
